Educator, Author, Speaker

In this riveting true story, join the journeys of these amazing young men and women who exhibit the fuel, grit, and chance to navigate and embrace the American dream. As they charge their wings from around the world and switch their life plans, they are able to surge forward through volts of triumph, tribulation, and tragedy. They have no evidence that their journey will land success. It's a plunge that most are unwilling to take. Yet in due time, it is exactly what they need to teach the world that learning a second language should always be considered an asset, and not a handicap.

If you have ever wondered "Why do people come to America?"

This book is for you.

If you have ever pondered "Should I go to America?"

This book is for you.

To all who are here, living and growing in this diverse land of beautiful stormy seas - this book is for you.
